PROFESSIONAL SUMMARY

Computer Science graduate from the University of Florida with experience developing software applications, working with databases, and supporting operational workflows. Strong foundation in programming, systems, and problem solving with hands-on experience in C++, Java, Python, JavaScript, SQL, and Linux. Seeking opportunities in software development, IT support, systems administration, and related technology roles.

EDUCATION

University of Florida | Gainesville, Florida
Bachelor of Science in Computer Science
Minor in Digital Arts and Sciences

Graduated: May 2026
GPA: 3.50

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, C++, C#, HTML5, CSS3

Operating Systems & Tools: Windows, Linux, Git, Visual Studio Code, Microsoft Office

Databases: PostgreSQL, SQL, Relational Database Design

Technical Concepts: Object-Oriented Programming, Data Structures, Algorithms, API Integration

IT Support & Systems: Troubleshooting, Device Configuration, Software Testing, Documentation

PROJECTS

Nutrition App | React, TS, Node.js, Express, PostgreSQL

Summer 2026

- Developing a full-stack nutrition tracking application using React, Node.js, Express, and PostgreSQL
- Designed database schemas and REST APIs to store and manage nutrition and meal data
- Built frontend interfaces that communicate with backend services to display and update user information

WAD File System | C++, Linux

Spring 2025

- Developed a custom file system in C++ using Linux and FUSE
- Implemented file and directory operations while maintaining data integrity
- Worked extensively with Linux command-line tools, file structures, and operating system concepts

Custom Programming Language | Java

Spring 2025

- Developed a custom programming language and interpreter in Java
- Implemented lexical analysis, parsing, and execution of user-defined programs
- Created documentation for language syntax and system functionality

WORK EXPERIENCE

Inventory Maintenance Clerk (Summer Part-Time) | NAPA Auto Parts

July 2017 – 2024

- Received, sorted, and organized daily shipments of merchandise in a fast-paced retail environment
- Assisted customers and staff by locating products and ensuring merchandise availability
- Coordinated with team members to support daily store operations and inventory management

LEADERSHIP EXPERIENCE

Officer, UF Pair-A-Dice Board Game Club

May 2025 - 2026

- Helped organize weekly meetings and campus events for a large student organization
- Coordinated event logistics and member engagement activities
- Supported community growth through collaborative leadership and event coordination
